"Fiona has been a great support to the company with various matters. She has taken time to understand the company and is always on hand when needed. It was especially useful to have clear direction on dealing with the complex detail of visa sponsorship and Fiona helped the process run smoothly"

"Fiona guided me through processes that were at times delicate. She made a very difficult process easier by guiding me through each step, providing information clearly and promptly and supporting me in a very reassuring and professional way. Above all it was Fiona's personal approach that I appreciated with her practical, clear and calm advice which helped me feel less anxious throughout the process"
